WORK EXPERIENCE

CCS Global

Project Manager

Aug. 2020 – Present

Remote

- Led cross-functional coordination across stakeholders, departments, technical teams, and business partners throughout development and implementation.
- Guided digital products and learning tools through development, audit, security, and approval requirements.
- Identified, evaluated, and implemented new technology solutions as platform capabilities and business needs evolved.
- Administered and managed LMS operations, including user onboarding, database reconciliation, platform updates, new feature launches, and integrations with supporting online services.
- Designed, developed, and delivered retailer-facing training focused on product knowledge, client experience, operational communication, and practical performance improvement.
- Developed role-based learning activities, evaluation materials, and simulation-based training resources for sales, service, parts, technical, and leadership audiences.

Land Rover Experience Centre

Location Manager - Canada

Oct. 2018 – April 2020

Montebello, Quebec

- Managed daily operations for the Canadian Land Rover Experience Centre, including a rotating fleet of 14 vehicles, 12+ part-time and full-time instructors, guest lessons, site readiness, and premium client experiences.
- Planned and executed annual owner events, retailer events, PR programs, marketing activations, media events, group bookings, and corporate experiences in partnership with Jaguar Land Rover Canada, hotel partners, concierges, and event agencies.
- Recruited, developed, trained, and coached instructors to deliver high-quality driving experiences, individual coaching sessions, retailer programming, and special event support.
- Planned and launched a direct-to-consumer online booking process that improved customer access, reduced manual booking steps, and increased direct booking opportunities.
- Developed and maintained partnerships with local businesses, hotel teams, event agencies, and Jaguar Land Rover retailers to support group bookings, retailer events, and premium brand engagement.

- Planned, budgeted, and executed technical and client experience training for the Canadian retailer network, managing an annual training budget of approximately \$3 million.
- Developed and implemented an 18-month technical training plan that helped Canada reach the number three global position for Master-level technicians.
- Achieved a 98% training completion rate across the Canadian retailer network for all job roles, exceeding the 80% target.
- Coordinated national training priorities across technical, product knowledge, client experience, auto show, and retailer performance needs.
- Reviewed, localized, and audited training content to ensure accuracy, market relevance, and readiness for Canadian delivery.
